

Customer Counter Top Planner and Bid Form

www.cocosgranite.com 206 N Main Ave. Ridgefield, WA 98642 Fax: 360-887-1448 Phone: 360-887-1444 Email: Vanessa@cocosgranite.com

Carefully measuring your countertop can help us give you an accurate estimate. We recommend dividing your countertop into easily measurable sections as shown in the example below. You can view our **Countertop Layout Section Breakdown** on our website to see how to divide up and measure different countertop layouts. Please provide measurements in inches.

Once you have sketched out your project and have an idea of the type of material you want (i.e. granite, marble, quartz or tile), you can scan and send it to us either by fax or email, or by good ol' fashioned snail mail. We'll have an estimate ready for you in 3 to 5 business days. Please see our contact information detailed above.
